

A periodic table of Little 500 elements

History meets alcohol meets two bike races in mid-April and the campus undergoes a chemical reaction unlike any other. We've kept every element of the traditional periodic table in place (go ahead, check it against the Chemistry Building), but changed the element names to make this a little more appropriate for the week.

1 H Howdy Wilcox, Jr.	4 Be Beer

Buchanan is a senior majoring in journalism and fine art. Every other week, he uses this space to tell stories visually — like looking at the change in the campus during four years, or drawing portraits of all the IU presidents by hair style. If you have suggestions or comments, please email them to buchanal@indiana.edu.
